

DEEP CAMEROON CIRCLE

To build a better nation, we will start by shaping every root of the tree. Cameroon being this tree and surviving on every family, we as Volunteers have decided to join this non-profit venture to profit the future of our nation. For us to foster Dialogue, Empathy Engagement & Peacebuilding, we have decided to bring it down to the root which is the family. In this light, we will engage in dialogues with families at individual and global levels on the necessity of reconciliation and peace building. We will use the bottom to top approach in this process of peace building. We will therefore in every community begin with families to groups and other associations and in due time, we will go national

We are still a very young branch, still putting documents together for registration under the government as a Common Initiative group.

COORDINATOR:

Atufung Ngebenui Sheila

MEMBERS

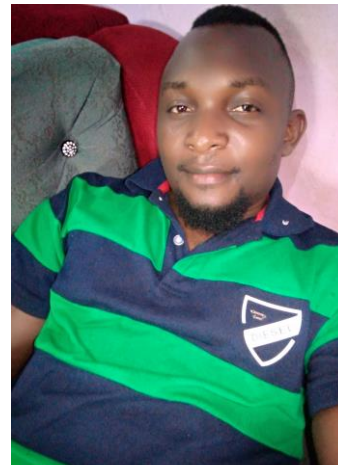

Ngang Romanus Ntseh

PROJECT

Entertainment is a great sensitization tool due to its ability to attract the attention of people. Through works of Arts we aim to bring families within targeted communities together towards the goal of Dialogue, Empathy Engagement & Peacebuilding.

We will explore any form of arts possible which can help promote this goal.
